3. Non-CME Educational Program Guidelines:

Non-CME Educational Programs provide an opportunity for commercial organizations to present information about their products, services or therapeutic areas to delegates attending the 2019 AAAAI Annual Meeting. The material presented may be promotional and may concentrate on a specific product. Non-CME Educational Programs are up to two hours in length, scheduled either in the morning or evening, and open to all Annual Meeting attendees on a first-come, first-served basis.

The AAAAI adheres to a right of first refusal process for organizations who have supported Non-CME Educational Programs the previous year. This means that the previous year's supporter is given the option of confirming support of the same day/time for a Non-CME Educational Program at next year's Annual Meeting before sponsorship of that function can be offered to another organization. Previous sponsors have until Wednesday, October 17, 2018 at 5:00 pm CST to submit their application to hold their day/time from the 2018 Annual Meeting. After the right of first refusal deadline has passed, any available day/time slots will be offered on a first-come, first-served basis to the waitlist of Non-CME Educational Programs. Any requests from the previous year's supporters to change the day/time of their program will be considered after the right of first refusal deadline has passed (i.e., programs that request a change in day/time are not eligible for right of first refusal and will be slotted only if placement is available). AAAAI reserves the right to confirm final placement of all Non-CME Educational Programs.
